“EMOCIONES” SHOW

The magic of Flamenco

The heart of Andalusia beats in a very singular corner of Madrid, the capital of flamenco. The feeling of Spain and of the Andalusian people inhabit a theatre for the first time. A unique, intimate and welcoming space capable of creating that special magic from which sprout the emotions that connect the spectator and the artist.

We are much more than the first flamenco theater in the world. Teatro Flamenco Madrid is the place where you can experience the heartrending essence of pure flamenco. A complete cultural center and meeting point for those who love and are passionate about flamenco.

Every day of the year, a renewed show: “Emociones”
